

Curriculum Vitae

Name: Farzan

Surname: Modaresi

Birth: 1986/9/6

Sex: Male

Nationality: Iranian

Assistant Professor in Jahrom University of Medical Sciences

Email: Modarresifarzan@gmail.com,

Farzanmodaresi@jums.ac.ir

Educational Background:

BA degree: Biology at Shiraz university of Iran 2004-2008

MA degree: Medical Microbiology at Jundishapur university of Iran 2008-2010

PhD: Medical bacteriology at Kerman University of Medical Sciences Iran 2011-2015

Education Experience:

Theoretical teaching medical microbiology for nursing student 2009-2020

Theoretical teaching medical Parasitology for nursing student 2009-2020

Theoretical teaching medical microbiology for undergraduate student from 2011-2020

Theoretical teaching medical bacteriology for Lab Sciences student 2016-2020

Theoretical teaching medical microbiology for nursing 2016-2020

Theoretical teaching medical microbiology for medicine student 2016-2020

Papers presented at scientific congresses:

Oral present:

Detection of streptococci group B in neonatal who suspected to the sepsis by Nested-PCR from Ahvaz Abozar and Emam hospitals (Iran) in Oxford University Ireland FEMS 2012

The use of Nanoparticles in treatment of multidrug resistance infection presented in Lyon France EMN Meeting 2017

Poster present:

Comparison between traditional and molecular methods for identification of klebsiella pneumonia in neonatal who suspected to sepsis

Detection of Enterobacter sakazakii from dried infant milk used in neonatal units of Imam and Abozar hospitals in Ahvaz-Iran

Published Article:

Participation in Congresses and seminars:

International Scientific Conference of the Institute for Cellular and Molecular embryos Persian 2008

The Fifth Iranian Congress of Virology and Vaccine Congress 2009

Third Iranian Congress of Clinical Microbiology 2009

Eleventh Congress of Microbiology, Iran and the Eastern Mediterranean Regional Congress of Microbiology 2009

Experienced methods:

-PCR

-Nested-PCR

-Multiplex and RT-PCR

–Electrophoresis

–ELISA

–Immunofluorescent

-Cell Culture

-Cloning and expression

-Real time PCR

-NanoMedicine

-Nanoparticles synthesize, Conjugate

Book: New Strategy in Treatments of Oral Infections by Nanoparticles (Published by Duuseldorf Scholar Press)
